

# **AI SERIES**

# For Finding Compressed Gas Leaks And Detecting Partial Discharge

#### **Low-noise MEMS** Microphones and Adjustable **Bandwidth**

With Low-noise MEMS microphones and an adjustable bandwidth range from 2 kHz to 96 kHz. The HIKMICRO AI series provides an easy and effective way to instantly locate gas leak detection and partial discharge from highvoltage systems.

#### **Analyzer Acoustic**

Analyzer Acoustic software allows you to analyze and create reports based on field inspection images.

## Real-time Display of Leakage Data

The HIKMICRO AI series offers real-time estimated leak rate, leak cost for gas leak detection. Al series can filter noise to "visualize" sound with a large 4.3" LCD touch screen even in noisy environments.

#### **Rugged and Portable**

Convenient one-handed operation makes the Al56 easy to manage and find/document issues fast.

### **Smart Partial Discharge Detection**

When placed in Partial Discharge mode, the Al series identifies corona, floating, surface, or particle discharge on high voltage systems that can lead to equipment failure. This is instantly displayed onscreen and can be saved for documentation and reporting.

# **Fully Document your Findings**

Capture 5MP visual images with sound or partial discharge overlay. Add text or voice comments to complete your reporting quickly.
