

MPB SERIES 1600 SINGLE AND DUAL TUBE VETERINARY GAS FLOWMETERS

MPB produces a comprehensive range of veterinary anaesthetic flowmeters complete with safety cover, independent control valves, illuminous backing and earthing tags, suitable for trolley or wall mounting.

- All MPB flowmeters for anaesthetic gases conform to ISO 5358 / BS 4272 being electrically conductive.
- MPB can also supply complete tube and float assemblies independently.
- Accuracy of measurement is to class 2.5 VDI/VDE 3513 or better.
- Process connections: 1/4" BSPPF, or ISO 23mm taper outlet. **PLEASE STATE WHEN ORDERING.**
- MPB design team will be pleased to discuss existing or new products i.e. customised designs, scales, tube lengths, etc. Colour banding supplied as standard.

Standard flow rates:

0.1-10 L/min O₂, 0.2-12 L/min N₂O, 0.1-1 L/min Air, 0.1-1 L/min O₂ and 0.1-1 L/min N₂O.

Please note we have a wide range of flow rates to suit these instruments. Please contact our sales office for full details.

Due to the constant development and improvement of products, information may be altered or withdrawn without notice.
